## Going places?

Whether you're heading to a tropical beach, crossing the border to shop, or visiting family in another province—make sure you're covered. Because when you travel, the full benefits of your government healthcare plan don't go with you. Away from home, you're left to arrange and pay for medical emergencies.

## Why TuGo?

One thing all travellers know—no trip is ever the same. And with adventure comes the possibility of health emergencies, missed flights or lost luggage.

We're here for you!

- 24/7 emergency assistance
- Multilingual Customer Service team
- Over 50 years of building relationships with healthcare providers all over the world
- Simplified Medical Health Questionnaire for travellers 60+
- Competitive pre-existing condition coverage

From getting you the best possible care to negotiating your bills with hospitals, we care. And it shows.

## Did you know?

Without travel insurance, you're facing numbers like these on your own. Nobody wants to deal with medical bills and debt collectors after a trip!

- Average cost in a US hospital is \$10,000 USD/day
- If you get sick or injured outside of Canada, the government covers less than 10% of the total cost
- A minor ear infection can cost thousands if you have to reschedule your flight

### More travel = More savings

Travel more than once a year? Ask about our Multi Trip Annual Plan. You'll be surprised how much you save!

What exactly is travel insurance? What does it cover and how does it work?

**Emergency Medical**  
\$5 million maximum limit

If you go to a clinic or hospital while away, you want to be covered for the cost of prescriptions, doctor visits, medical services, ambulance rides and more. Just call us and we'll coordinate with medical staff to get you the best treatment possible.

**Pre-existing Condition Coverage**

If you already have a medical condition, you can still get coverage. For example, you may have diabetes or be on medication for your blood pressure. Talk to your broker for all the details.

**Trip Cancellation/Trip Interruption**

Some things are beyond your control. Before or during your trip, an unexpected event may prevent your travels. It could be the death of a loved one, a natural disaster, or the loss of your job. When these things happen, you don't want to worry about the cost of your trip.

**Baggage**

There's nothing worse than having to wear a T-shirt from the gift shop that might as well say, "The airline lost my luggage." When your bags are delayed or lost, it's nice to know you'll be able to get the things you need.
